Adobe Photoshop CS5 is the latest version available right now We're pretty sure it's expensive, but since everyone just downloads pirated copies of it, no one is really sure.. It has new features and great improvements like Video editing thus a user can be able to edit video files.

It is faster due to the presence of a new mercury graphics engine and has an auto-recovery mechanism as well as a background save function.. This software is present in the market for both Windows and Mac operating systems.
